

If the 1pfm is established we would lose our K-Love station which would be a great loss to our community. K-LOVE provides a station with acceptable music for the whole family plus gives the life changing gospel to millions! To lose this would be tragic for our communities! Our society has allowed violence and sexual content to invade everything, including our music and we need to have an alternative and K-LOVE provides that. Please, for the sake of public interest and our communities, DO NOT make the change!!
